

**PROGRAMME SPECIFICATION – MSc, PG Dip and PG Cert Legal
Technology**

1.	Awarding Institution:	The University of Law
2.	Final Award:	Master of Sciences Postgraduate Diploma Postgraduate Certificate
3.	Exit / Intermediate Awards:	Postgraduate Diploma Postgraduate Certificate
4.	Programme Title(s):	MSc Legal Technology Post Graduate Diploma Legal Technology Post Graduate Certificate Legal Technology
5.	Accredited by:	N/A
6.	Total Credits:	MSc Legal Technology – 180 credits Post Graduate Diploma Legal Technology – 120 credits Post Graduate Certificate Legal Technology – 60 credits
7.	Level	Master's (level 7) within the FHEQ
8.	Mode of Study:	Modular Full-Time or Part-Time Attendance (Blended Learning) or Online
9.	Language of Study	English
10.	Length of Programme:	MSc: Full-Time: 12 months Part-Time: 24 months (maximum 5 years) PG Dip: Full-Time: 9 months Part-time: 16 months PG Cert: Full-Time: 4 months Part-Time: 9 months
11.	Criteria for admission:	The minimum qualification for admission to the programme is normally the possession of a UK bachelor's degree at 2:2 or above or equivalent qualifications International students whose first language is not English will be

Programme Specification: MSc Legal Technology

		required to pass the IELTS test at 6.5 or above, with a minimum of 6.0 in each of the four heads.
12.		
13.	UCAS code (if relevant):	N/A
14.	HECoS Code:	100631
15.	Date of Production/Revision:	November 2020
<p>16. Aims and Rationale of the Programme</p> <p>These Law School MSc and PG Dip and Cert Legal Technology programmes are designed under the University's Category 2 Master's Framework.</p> <p>All Law School Master's (and PG Dip and Cert) programmes will enable students to gain practical insights as well as theoretical knowledge in specialised areas of law. All modules approved for study under the Law School's Master's (and PG Dip and Cert) programmes will develop students' transferable skills through the University's embedded employability strategy. Upon completion of one of the Master's Awards programmes, students will be able to successfully tackle complex legal issues arising from practical scenarios, provide competent legal advice to fictional clients and critically evaluate the principles of law covered by the programme.</p> <p>The University recognises that a number of students attracted to the MSc and PG Dip and Cert Legal Technology will either be from non-common law jurisdictions or from a non-law background. Therefore, a comprehensive induction programme will form part of the first two weeks of study, covering the key principles of the common law system. This will be made available to all students enrolled on the programmes. The full induction programme will be available both face to face and online.</p> <p>In particular the aims are as follows:</p> <ul style="list-style-type: none"> • To develop a systematic understanding of the law and practice on the part of learners, and a critical awareness of current problems and/or new insights, at the forefront of the areas studied. • To enhance learners' intellectual, transferable and interpersonal skills as well as developing the postgraduate skills such as the demonstration of initiative and autonomy in planning and implementing tasks at a professional level. • To develop further a comprehensive understanding of legal research techniques and methodology and their application. • To provide learners with a programme of study that enhances their prospects of legally-related professional, commercial, business or academic employment. • To provide flexibility in delivery modes to increase learner access to the LLM, and particularly for international learners or those already employed in legal practice. 		

- To cater for a range of learning preferences through a variety of learner-centred activities and using a variety of learning media.

Programme Outcomes

A. Knowledge and understanding

Upon successful completion of the programme, students will be able to demonstrate knowledge and understanding of:

A1. a substantial range of practical and theoretical legal and technological principles and processes relevant to the areas studied.

A2. the law of England and Wales and, where appropriate, European and or international law.

A3. current research and practical scholarship in relation to specific areas of law and technology both domestically and internationally, as appropriate.

A4. current problems and insights at the forefront of the discipline.

A5. research methods appropriate to law and the social sciences, including primary and secondary sources, nationally and internationally, as appropriate. [MSc only]

B. Subject specific intellectual and research skills

Upon successful completion of the programme, students will be able to:

B1. interpret complex legal issues systematically, making sound judgements and communicating findings clearly and accurately in English using appropriate legal terminology.

B2. analyse practical legal and technological problems logically and provide a range of solutions to them informed by critical evaluation of their merits.

B3. analyse primary legal source materials such as cases and statutes and apply the law derived from this data to the solution of practical legal problems.

B4. critically evaluate and synthesise doctrinal arguments surrounding particular areas of law and technology and construct a coherent argument from relevant data.

B5. process a large quantity of complex data and apply that information to the resolution of individual problems.

C. General Transferable Skills, Professional Skills and Attributes

Upon successful completion of the programme, students will be able to:

C1. explain how established techniques of research and enquiry are used to create and interpret knowledge in law and technology, and apply these skills in order to make personal

and reasoned judgements in the areas studied, especially in relation to the award-linked subject area. [MSc only]

C2. appraise relevant ethical and policy issues which underpin the areas of law and technology studied.

C3. listen effectively to others, with a view to extracting relevant information, identifying gaps in information and/or distilling key points in order to form a coherent critique.

C4. work independently and with originality in tackling and solving problems and overall act as an autonomous professional.

C5. communicate the conclusions of their research clearly and concisely to legal and non-legal; technical and non-technical audiences.

C6. identify transferable skills for employment requiring the exercise of personal responsibility, independent learning, and the exercise of initiative in complex and unpredictable situations.

C7. critically evaluate their own progress and independent learning for continuing professional development.

C8. appraise and make decisions with complex and unpredictable information and/or data.

C9. evaluate and apply concepts learned in one area to another.

QAA Characteristics Statement: Master's Degree (September 2015)

17. Programme Structure, Levels, Modules and Credits

MSc Legal Technology

The programme will be structured around three terms for full-time and six terms for part-time. The minimum duration of the full-time programme is 12 months and the minimum duration for the part-time programme is 24 months. The maximum time for completion of the programme is five years.

There will be two possible entry points for each programme: September and January. The programme structure is the same for attendance and online students. Each term will span approximately 17 weeks and will be based on ten teaching weeks.

Full-time student term pattern:

Term 1:

- Two Week Induction
- Five Teaching Weeks

Programme Specification: MSc Legal Technology

- Reading Week
- Five Teaching Weeks
- Revision Period
- Assessment

Term 2:

- Five Teaching Weeks
- Reading Week
- Five Teaching Weeks
- Revision Period
- Assessment

Term 3:

- Research / Writing up

For part-time students there will be four terms of taught content followed by two terms dedicated to research and writing up.

Please see Appendix 3 for the sample year planner.

Full-time students will be expected to study the equivalent of 60 credits per term. Part-time students will be expected to study the equivalent of 30 credits per term.

The programme will require at least 90 credits to be linked to the award title: 60 credits from a student's independent research and dissertation and 30 credits from taught module content. The remaining 90 credits can be made up from any combination of modules listed in the approved module list.

PG Dip Legal Technology

The programme will be structured around two terms for full-time and four terms for part-time. The minimum duration of the full-time programme is 9 months and the minimum duration for the part-time programme is 16 months. The maximum time for completion of the programme is five years.

There will be two possible entry points for each programme: September and January. The programme structure is the same for attendance and online students. Each term will span approximately 17 weeks and will be based on ten teaching weeks.

Full-time student term pattern:

Term 1:

- Two Week Induction
- Five Teaching Weeks
- Reading Week
- Five Teaching Weeks
- Revision Period
- Assessment

Term 2:

- Five Teaching Weeks

Programme

Specification: MSc

Legal Technology

- Reading Week
- Five Teaching Weeks
- Revision Period
- Assessment

For part-time students there will be four terms of taught content following the same pattern as Term 2.

Please see Appendix 3 for the sample year planner.

Full-time students will be expected to study the equivalent of 60 credits per term. Part-time students will be expected to study the equivalent of 30 credits per term.

The programme will require at least 60 credits to be linked to the award title.

PG Cert Legal Technology

The programme will be structured around one term for full-time and two terms for part-time. The minimum duration of the full-time programme is four months and the minimum duration for the part-time programme is nine months. The maximum time for completion of the programme is five years.

There will be two possible entry points for each programme: September and January. The programme structure is the same for attendance and online students. Each term will span approximately 17 weeks and will be based on ten teaching weeks.

Full-time student term pattern:

Term 1:

- Two Week Induction
- Five Teaching Weeks
- Reading Week
- Five Teaching Weeks
- Revision Period
- Assessment

For part-time students there will be two terms of taught content following the same pattern as Term 1 (minus the two week induction).

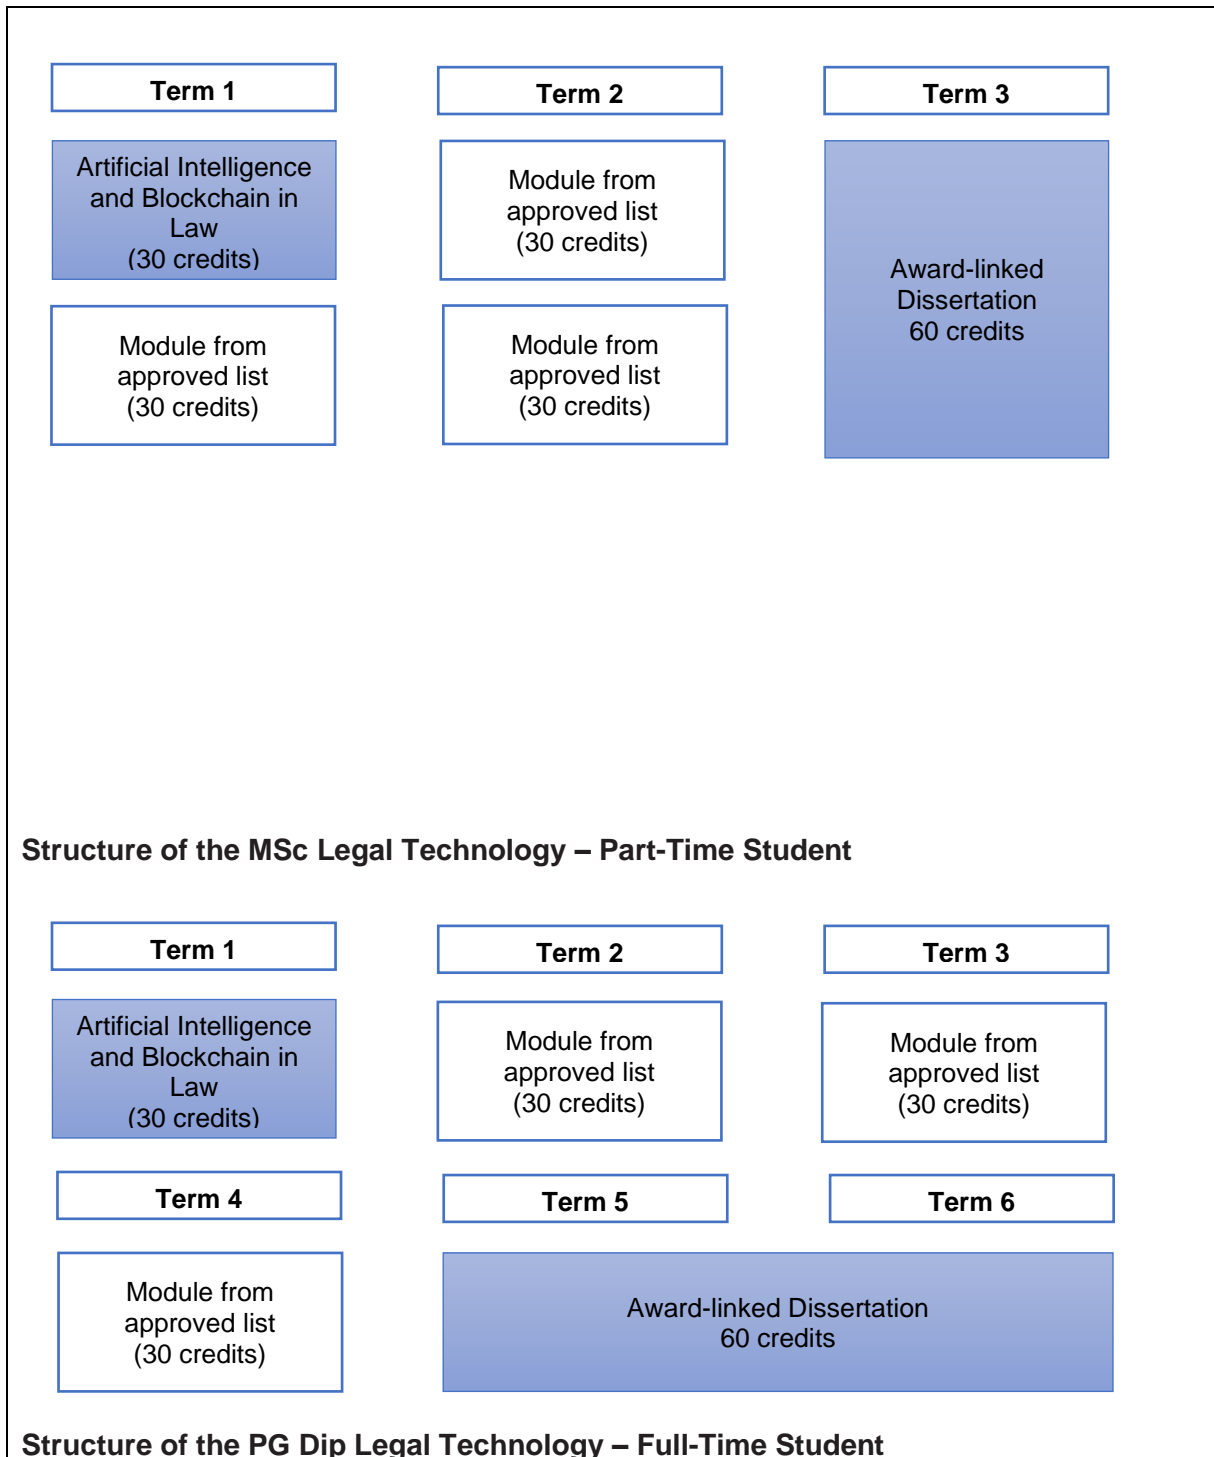

Please see Appendix 3 for the sample year planner.

Full-time students will be expected to study the equivalent of 60 credits per term. Part-time students will be expected to study the equivalent of 30 credits per term.

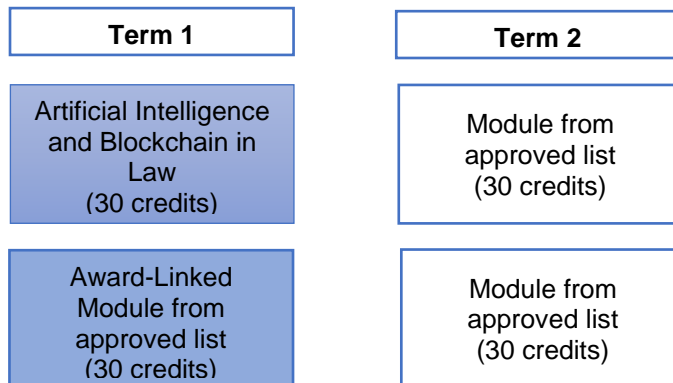

The programme will require at least 30 credits to be linked to the award title.

Structure of the PG Cert Legal Technology – Part-Time Student

Programme Specification: MSc Legal Technology

Term 1

Artificial Intelligence
and Blockchain in
Law
(30 credits)

Term 2

Module from
approved list
(30 credits)

Complete list of Modules available under these programmes included in this application:

The complete list of modules may be amended, added to and changed from time to time.

Module Name	Credits
Dissertation (award linked) MSc Only	60
Artificial Intelligence and Blockchain in Law	30
Company Law in Practice	30
Corporate Governance in Practice	30
Corporate Governance and Disruptive Technology	30
Cyberlaws (The Laws of Data and Digital Assets)	30
International Business Law	30
International Corporate Governance	30
International Criminal Law	30
International Human Rights	30
Mediation and Alternative Dispute Resolution	30
Medical Law	30
Technoethics in Law	30
The Internet of Things	30

18. Programme Outcomes, Learning & Teaching and Assessment Strategies

A. Knowledge and Understanding

Upon successful completion of the programme, students will be able to demonstrate knowledge and understanding of:

A1. a substantial range of practical and theoretical legal and technological principles and processes relevant to the areas studied.

A2. the law of England and Wales and, where appropriate, European and or international law.

A3. current research and practical scholarship in relation to specific areas of law and technology both domestically and internationally, as appropriate.

A4. current problems and insights at the forefront of the discipline.

A5. research methods appropriate to law and the social sciences including primary and secondary sources, domestically and internationally, as appropriate. **[MSc only]**

Learning and Teaching Methods

The approach to learning and teaching on the Master of Laws programmes is predominantly learner-centred. Each taught module is divided into a number of Units which are presented using the *Prepare, Engage, Consolidate* approach.

Prepare: this represents all of the work the student needs to complete before attending / completing the relevant workshop. Traditional lecture content will be presented in short bite-sized segments of approximately 10 minutes to better engage the modern student. Guided independent research and reading will be expected as part of a student's preparation.

Engage: this represents the interactive element of the Unit. This could be a face to face workshop, a synchronous online workshop or an asynchronous online activity.

Consolidate: this represents the final part of the Unit and can be used by students to check their understanding of the Unit immediately after their Engage activity or as part of their revision for the module or both. Consolidate activities will vary depending on the module and Unit but could include Test and Feedback (computer based questions).

Within each of the modules, the student will be expected to demonstrate an ability to complete a complex set of tasks and activities autonomously.

In the dissertation, the student will select a specialist research area and, under supervision, complete a 15,000 word research project.

Assessment Methods

Knowledge and understanding is assessed through a combination of written examinations, coursework style assessments and the Dissertation.

<p>B. Subject Specific Intellectual and Research Skills</p> <p>Upon successful completion of the programme, students will be able to:</p> <p>B1. interpret complex legal issues systematically, making sound judgements and communicating findings clearly and accurately in English using appropriate legal terminology.</p> <p>B2. analyse practical legal and technological problems logically and provide a range of solutions to them informed by critical evaluation on their merits.</p> <p>B3. analyse primary legal source materials such as cases and statutes and apply the law derived from this data to the solution of practical legal problems.</p> <p>B4. critically evaluate and synthesise doctrinal arguments surrounding particular areas of law and technology and construct a coherent argument from relevant data.</p> <p>B5. process a large quantity of complex data and apply that information to the resolution of individual problems.</p>	<p>Learning and Teaching Methods</p> <p>Cognitive skills are developed through the teaching and learning methods and strategies outlined above. In particular, analysis, critical judgement, evaluation and problem-solving skills are further developed through the use of practice-based scenarios.</p> <p>These skills will be further developed through the production of formative and summative written work, oral and written feedback and through the supervision relationship during the dissertation.</p> <p>Assessment Methods</p> <p>For the intellectual skills, these outcomes will be developed through classroom based workshop tasks or regular online tasks and problem-solving exercises and then are assessed in the module assessments through the tasks and activities required to be carried out.</p> <p>The dissertation provides particular opportunity to demonstrate all of the skills in B1-B5.</p>
<p>C. General Transferable Skills, Professional Skills and Attributes</p> <p>Upon successful completion of the programme, students will be able to:</p> <p>C1. explain how established techniques of research and enquiry are used to create and interpret knowledge in law and technology, and apply these skills in order to make personal and reasoned judgements in the areas studied. [MSc only]</p>	<p>Learning and Teaching Methods</p> <p>As for the intellectual skills above, within the established learning model the general transferable skills will be primarily developed both in preparation for, and through the activities inherent in the workshops.</p> <p>Independent, supervised research during the dissertation and other activities will be the primary teaching method for these skills and attributes.</p> <p>Finally, the essence of the University's learner-centred approach is that from the outset students</p>

Programme Specification: MSc Legal Technology

<p>C2. appraise relevant ethical and policy issues which underpin the areas of law and technology studied.</p> <p>C3. listen effectively to others, with a view to extracting relevant information, identifying gaps in information and/or distilling key points in order to form a coherent critique.</p> <p>C4. work independently and with originality in tackling and solving problems and overall act as an autonomous professional.</p> <p>C5. communicate the conclusions of their research clearly and concisely to legal and non-legal; technical and non-technical audiences.</p> <p>C6. identify transferable skills for employment requiring the exercise of personal responsibility, independent learning, and the exercise of initiative in complex and unpredictable situations.</p> <p>C7. critically evaluate their own progress and independent learning for continuing professional development.</p> <p>C8. appraise and make decisions with complex and unpredictable information and/or data.</p> <p>C9. evaluate and apply concepts learned in one area to another.</p>	<p>will be expected to assume responsibility for their learning and develop self-analysis.</p>
	<p>Assessment Methods</p> <p>The general transferable skills will generally be assessed within the formative and summative assessment methods outlined above.</p>
<p>19. Inclusive Considerations</p>	
<p>20. Prior Credits considered for RPL</p>
